Summary

I am an MCA student with strong foundations in software development, object-oriented programming, and database management. Hands-on experience in developing full-stack web applications and machine learning-based systems with a focus on clean architecture and effective problem-solving. Demonstrated strong analytical abilities through solving 150+ coding challenges and securing a Top 1% performance in NPTEL Programming in Java. Seeking an entry-level software development role to contribute to scalable and high-quality technology solutions.

Education

Periyar Maniammai Institute of Science & Technology , MCA Master of Computer Applications CGPA: 8.33 (Upto 2nd semester)	Vallam in Thanjavur, aug 2024 – May 2026
Periyar Maniammai Institute of Science & Technology , BCA Bachelor of Computer Applications GPA: 8.14	Vallam in Thanjavur, aug 2021 – May 2024

Skills

Languages: Java, Python, JavaScript
Backend: Spring Boot, REST APIs, JDBC
Frontend: HTML, CSS, (Basic React.js)
Database: MYSQL
Concepts: Object-Oriented Programming (OOP), MVC Architecture
Tools: Git, GitHub

Projects

CAMPUS PLACEMENT APPLICATION

- Designed and developed a role-based web application with Admin, Company, and Student modules. Developed a scalable role-based web application using Java, Spring Boot, and MySQL, implementing RESTful APIs and secure authentication using Spring Security. Version controlled using Git and GitHub.
- Built dynamic job filtering and resume upload features. Designed REST APIs and integrated MySQL database.Reduced manual placement coordination effort through automation.
- Technologies Used:** Java, Spring Boot, Thymeleaf, MySQL, HTML, CSS

AUTOMATIC PREDICTION OF LOAN ELIGIBILITY USING MACHINE LEARNING

- Developed an ML-based loan approval system using Support Vector Machine (SVM). Achieved 92% accuracy after feature engineering and model tuning.
- Implemented authentication, admin dashboard, and real-time prediction module. Automated loan decision process to reduce manual evaluation time.
- Technologies Used:** Python, Flask, Scikit-learn, Pandas, NumPy

Coding Profile

GeeksforGeeks: Solved 150+ problems to strengthen core coding skills. -[profile link](#)

HackerRank: Achieved a 5-star rating in Java by consistently solving advanced programming problems.

Certificates

Programming in Java: NPTEL (Score: 99%)
Core Java : HackerRank
JDBC: Great Learning
Fundamental of Object Oriented Programming: uLektz.
python programming: GUVI

Award

Honored with the **Best Academic Achievement Award by the Vice-Chancellor for securing 99% (Top 1%) in NPTEL Programming in Java among national participants.**
